

IDEATION REPORT

Tech Community Event Management Site

1. Introduction

- Site gives a quick introduction about the working and structure of the coding community or technical societies of the institute.
- Goal of the project is to provide a single platform to broadcast events of different clubs of the institute and keep record of activities of members of different clubs.

2. Expected List of Features

- Rating Mechanism to rate activities of registered users of different community.
- User/Member portal with a login/registration screen.
- Admin/Coordinator portal to keep an eye on all club activities.

3. Market Survey

- Few web sites that have similar ideas as mine :
 1. <https://codecops.web.app/goc>
 2. <https://eduthon.tech/>
 3. <https://iiitrevents.000webhostapp.com/>
